Why the lack of divinity?

Sr.No. 229

July 2022

Almighty is the pervasive force of consciousness in the entire creation. Our life is moving by the divine consciousness of God. Why do we lack divinity?

In this deceptive world we have shut the doors of discrete intellect because of our ignorance, infinite moments of disbeliefs and negative thinking.

To re-ignite this divinity of god, we need to create and develop a positive and pious atmosphere. Where the atmosphere of love, shraddha (devotion), joy and happiness must be lit. Increase the prevalence of divine qualities.

In this divine atmosphere we can feel the presence of God. Heaven can be created by our love filled feelings, behaviours, social dealings. Heavenly happiness is where there is a balance in peace and prosperity, atmosphere is filled with love and happiness.

If we can find a coordination amid the divine consciousness and the consciousness with us, you can save yourself from the personal struggles in life, and life will be blissful. Numerous streams of joy seem to rise from within. The aura of inner and outer personality becomes brighter. We will experience the heavenly bliss of divinity when the seeds of service, kindness, compassion and love are sown by keeping God together.

Aum Ma Aum
