The first step of life's journey

Serial Number 240

June 2023

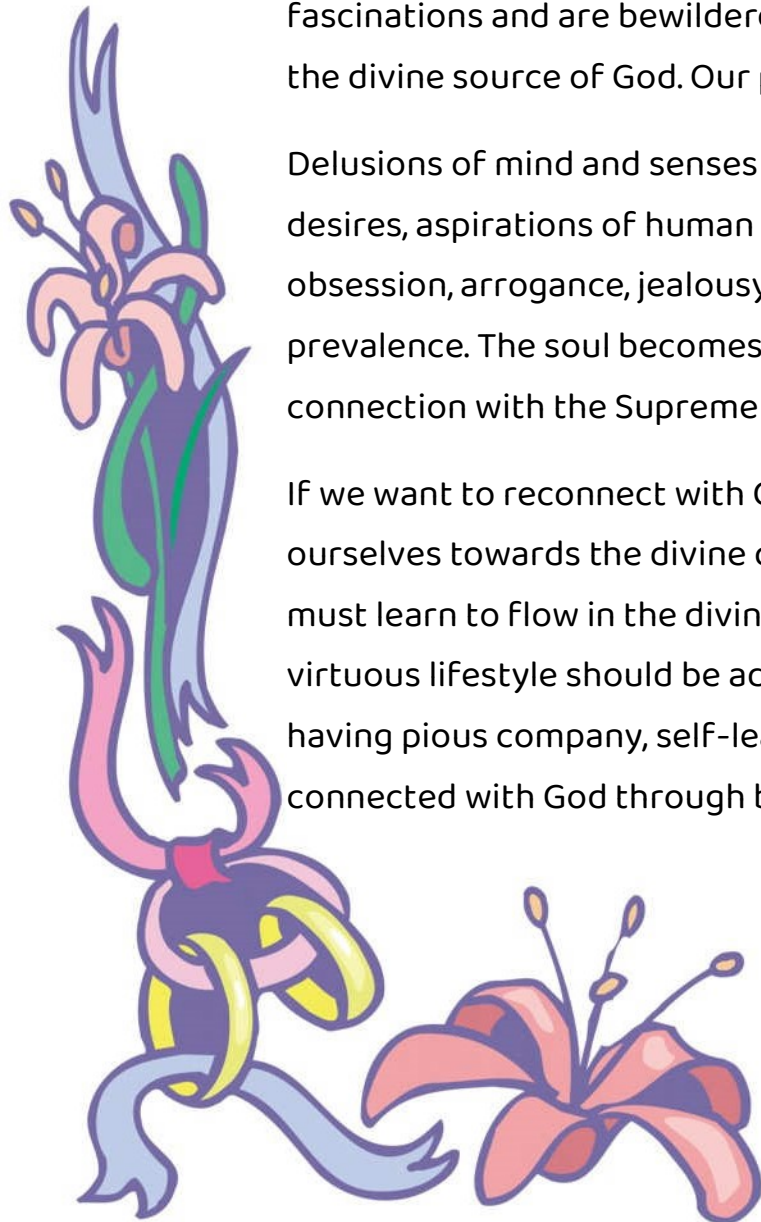

Every living being on this earth is part of God. Therefore, every soul embraces the basic attributes of God. Just like the properties of a drop of water taken from the sea will be similar to the properties of the whole sea.

If we understand the attributes of God during our life time, we can also become healthy, happy, full of virtues just like him.

The attributes of the soul are suppressed in the illusionary fascinations and are bewildered. Our life is cut off from the flow of the divine source of God. Our powers become limited.

Delusions of mind and senses are increased because of hopes, desires, aspirations of human life. Conspiracies - lust, anger, greed, obsession, arrogance, jealousy etc. vices begin to increase their prevalence. The soul becomes bound in the bonds of karma. The connection with the Supreme is reduced, broken, lost.

If we want to reconnect with God, establish affinity, we must orient ourselves towards the divine consciousness of the Supreme. One must learn to flow in the divine flow of the Supreme. Pious rules, and virtuous lifestyle should be adopted. One should make a rule of having pious company, self-learning, worshiping and try to stay connected with God through body, mind and soul.

Let us continue to follow the values of morality while performing the duties of life, family, society and nation and keep pursuing with the divine selflessly. Cultivating and adopting the true understanding of living a spiritual life is the first step in the journey of life.

Aum Ma Aum
