## Auspicious Life

Serial Number 241

July 2023

When can human life become auspicious?

Saints and ascetic people use their words wisely only after filtering them through the sieve of courtesy, so their words bring change in human life and society.

His word becomes a mantra, because behind the word there is the brightness of their penance. It is a sum of their experience. A word from the hearts of great men, passed through the anvil of experience, transforms life. The speech of great men makes life auspicious.

A beautiful life like human life is not found in other species, so there are possibilities to make life auspicious in the human body only.

If the prevalence of chanting, penance, virtues, good behaviour increases in life, never allow vices like jealousy, blasphemy, violence should not be allowed to enter the life, if we decorate the life with kindness, charity, compassion, good service, then life will become auspicious.

To live an auspicious life that overcomes the circle of birth and death, live a life with determination to achieve the purpose of life.

O lord guide us from lies to the supreme truth,  
From the deep darkness guide us to the lights.
